Date: August 16, 2009

TO: Homeless Issues Committee
FROM: Gordon R. Anderson, Executive Director
SUBJECT: **Transportation Committee Work Program for 2010-2012**

Recommended Action:

That the Committee discuss and provide direction to the Executive Director and staff on development of an 18 to 24 month work program for the Committee.

Background

In 2008, the COG set forth its Proposed Work Programs for 2008-2010. Homeless Issues was integrated in the broader heading of Social Services, which included the following:

Transportation and Improved Mobility

- Create cooperative plans to improve mobility, transportation, and infrastructure issues. Advocate for transportation planning and subregional projects and explore potential for public/private partnerships.
- Develop system-wide linkages and enhancements to secure a seamless, integrated program within the Westside and across the region.

Beginning discussion of the work program for 2010-2012 at this meeting will allow staff to prepare a status review of the current work program and propose modifications for the committee to review at its October meeting. The goal is for the COG governing board to consider Proposed Work Programs for 2010-2012 in November.
